

DA930X

VSM DIAMOND

Grain type	Diamond
Bonding	Galvanic
Colour	Green
Backing	Aramide fiber
Flexibility	Sturdy
Production width	300 mm

Materials

Features

Diamond abrasive, partially coated. Suitable for use with materials such as very hard non-ferrous metals or surface-hardened metals. DA930X is characterised by a very long service life, high stock removal, a consistent surface quality and high temperature resistance.

Grit range:¹⁾

Benefits

- > Very long service life
- > Consistent surface quality
- > High stock removal
- > Good temperature resistance
- > DA930X is suitable for machining very hard non-metal-based materials, tungsten carbide, titanium carbide, Silicon carbide, ceramics, glass, porcelain, stones, graphite, composites...
